Explanations:

₱ = abbreviation for "pro"; e.g., ₱vided = provided

℘ / ₱ = upper & lower case for "per", "par", "por"; e.g., ℘secution, ₱ticular = persecution, particular.

Φ = abbreviation for "que", e.g., Anno Φ = Annoque

ŧ with abbreviation stroke on shank. This should be of such length that when the letter is doubled the cross strokes will join thus — "ŧŧ"
